

Course	UNWE-Sofia; Introduction to Economics (in English), Fall 2015; Verbal Student Evaluations
Teacher:	Petar Stankov
Comments are unabridged. Language, grammar and spelling are kept as given.	
1	What types of critical/independent thinking were involved?
	In general I feel that I am more capable of taking rational decisions based on economics.
	About the independent thinking, they were interest because this is the way to understand things but in a funny way.
	About how things work, not believing in myths.
	About some basic models of the world market
	It inspired critical thinking about rational decision making (on daily basis). As well to continue reading on such topics and to finish the book for the course.
	It reminded me to start business right now.
	Thinking about real life situations and examples and understanding paterns that I couldn't understand before.
	Thinking over what we talk about in class.
	Yes, there was some critical thikning involved and I really do like it. But I want more! Make us think!
	I learned how to think in an economic sort of way, meaning that I now know a lot of things about the market structure than I did before.
2	What is your overall assessment of this course? Why?
	The course was on a relatively good level. I definitely increased my knowledge about economics.
	The course as on a very ameliorative [unfinished thought here]
	The course gives me very useful information and starts thinking process about econoimc environment, prices, demand, supply.
	I liked it very much.
	Excellent, because the teacher has a great sence of humor and he can explain the different material during lectures.
	It's interesting but the lectures start to early
	The teaching was done in a really interesting way that really grabs your attention. I wish the sample test consisted of questions that are just as hard as the exams.
	I got confused on few questions so I couldn't get an excellent score.
	There were really useful things I learned from this course, the only thing I didn't like was waking up so early:D
	The lectures were presented good and they were helpful.

	It was interesting and it attracted my attention indeed.
	It is interesting, I was able to understand the concepts. In a way it was different than the other lectures.
	4, and that is because you late for your classes.
	Because attracted my attention very early in the morning.
	Because it's motivating and interesting. And Stankov is funny.
	Isn't the basis of economics a little bit more than supply and demand?
	I like it.
	My overall assessment of this course is very much positive, it gave me a glimpse and a little inside into on how the market works, the consequences of certain actions and so on.
	3 Would you recommend the course to other students? Why/why not?
	I would recommend this course to anyone who would like to increase his knowledge of economics, as well as to improve his critical thinking.
	I would like to change lecture detailed explanation
	Yes I would.
	Yes, it gives us realistic point of view for many things.
	Yes, definitely. The combination of the professor and his teaching are in a high and very good level.
	Yes I would. It was helpful and interesting!
	Yes I would recommend the course to other students because during the lectures we have exercises.
	Yes. It was very helpful for a student like me who doesn't have any idea about economics -- at least I didn't have, now it's much better.
	Yes, I would recommend it, because it gives us basic skills and helps us to understand the basic movements and how the demand and supply shift on the market.
	Yes, I would, because it was very useful and interesting for me.
	Yes!
	Yes. It's a great way to learn basic economics.
	Yes, cuz its really interesting
	I would and only because of the lecturer. I wouldn't wake up at six o'clock if Stankov isn't there to tell a funny story or make a good joke during the lecture.
	I would recommend this course because the teacher is very smart and moreover friendly to the students. It is worth attending the lectures.
	I would because they were helpful for me and I believe they will be for other students

	Yes, I would recommend it, because it was interesting and the way you presented the information was funny and comprehensible.
	Yes, because the instructor can explain everything very well so that it's clear for everyone.
	Yes, I should recommend this course to my friends. Because is so useful and interesting.
	Yes, because I think it will be more helpful for them than many other courses in UNWE.
	Yes, because it's interesting and you can give knowledge.
	Yep.
	I would, because it's interesting, but not as useful as it is supposed to be.
	Yes I would mainly because I think it's good every person to have some basic knowledge in the economics and he/she can get it from your courses.
4	Was the instruction on this course different compared to other courses you have taken? If yes, in what ways?
	No.
	No.
	Yes.
	No.
	No
	No it wasn't
	Yes, because I couldn't release from an exam comparing to other courses, but still it was more valuable and useful for me to attend these lectures.
	It was not different.
	Yes, I had the possibility t... [unfinished]
	No
5	Do you have any other comments on the course or the instructor?
	No, in general the course was on a very good level.
	Yes I would like to see a test that will allow us to free ourselves from the final exam.
	To upload the answers of the tests we make in class, if in order we absent to have them.
	Stay the same!
	nope
	Maybe more practice should be done with students. Sth for homework or things like this
	I liked the course and the teaching.
