	Petar Stankov, UNWE, Sofia, Introduction to Economics (in English), Fall 2013.
	Verbal evaluations - uncensored in any way:
	Instructions: "Written comments: Please leave your opinion on how to improve the course content, and
	the quality of teaching."
1	Stankov FTW!!!
	With homeworks on games and more exercises
3	Encourage teamwork!
	Don't ever stop teaching, you are awesome! Most useful course this semester.
5	Acquaint the students with some alternative economic theories and schools of thought ignored by the
	mainstream economics.
	Prepare easier exams.
	Keep up the good work. I come to leactures motivated and you never disappoint.
	Keep up the good work:)
	Explain questions more explicitly.
10	Economics is one of my favourite classes, but I think the professor should draft the graphs more clearly, not one upon other.
11	Clearly state the answers to the questions in exercises.
	More text and full examples in presentations for better home preparation.
13	I would suggest if you are able to influence the schedule makers, not to put your classes on Friday night if they
	are only once a week, since the two cohorts come together on the first and it makes teaching and listening
	harder. Everything else was perfect. Thank you for the knowledge you provided us with!
	It would be better if there is clearer statement of the answers from the exercises.
	No need to improve. The coolest lecture! Keep it up. Examples that you give rulzzz. I really enjoyed the time and
	learned a lot of things.
	Never change yourself!^^
	The midterm test went well and so did the whole semester
	I'd be thankful if you talk on the microphone during the whole lecture! Thanks in advance!
19	On how to imrove the course content I suggest to put more information in the presentations. I have nothing to
	say about the quality of teaching - it's at a very high level.
	Average teaching skill: 4.00
	In my opinion it would be a good idea to introduce homework assignments after every lection where we
	practice the material.
	To release us early The class is well organized, interesting and [unreadable here]. The material is easy introduced.
	Give better examples about specific economic problems.
	You are cool:)
	When you talk economics to me it turns me on!
	Cool enough:)
	You should subject students to feel more relaxed thus increasing concentration
28	Even more discussions.
	Don't repeat the examples so many times.
	You are my favourite teacher!
32	
33	! [Translation: "You are big!"]
34	BEST PROFESSOR EVER! Since I will continue to study Business Computer Science I don't really find economics
	that interesting, you made economics very interesting for me and very easy to understand, even though the
	concepts are not that easy.
35	The course is very interesting and fun at the same time. Something not many people can achieve. P.S. Azis
26	concert - seriously?! WTF?
36	I like you! You are my favourite teacher!

-	This class is the best in the world.
	I think that kind of teaching is very professional and positive. The classes are very interesting and I like the way
	you communicate to us. You're my favourite teacher!
	I highly recommend you tell the exact answer of the question without just skipping it. Moreover, when you give
	examples for preparing to exam the possible options are 4 but this is not valid for the exam with 5. It's not fair.
39	Also 5/6 evaluation.
40	I think everything is perfect.
41	Everything is perfect!:)
42	Everything is OK!
43	It's perfect
44	Make it more detailed. We discuss one simple thing too long. Info concerning Bulgaria. Take care and thank you
	ΧΟΧΟ
45	I actually learned something:) Thank you! Keep up the good work!!! :) :)
46	Laugh more!
	VARNAAAAA
	Do not need any improvement!!!
	For me this is the best class I attend this semester and something to improve is maybe more econometrics for
	the people who love math.
	The teacher presents the material clearly but I think we should emphasize on the curve and the graphics as on
	the exam that was the main topic of the questions and many people cannot understand it. We should emphasize
	on the practice more than on the theory.
51	You're sense of humour is just awesome, Mr. Stankov.
	I love your examples! Especially those who are domestically related to toilet paper! You are awesome.
_	Professionalism is hi best quality, when we talk about teaching. It is always fun, exciting and interesting with
	him. I always take my studies serious when I go to Mr. Stankov's lectures because I know that if I have
	something I do not understand, for surely I will get my answer on his lectures.
	I think everything is perfect, but more exercises with the group would be more productive.
55	THE BEST!
56	Simply the Best teacher so far!
	The teacher presents the overall material very professionally and very easy to understand. P.Stankov is the best
57	teacher in UNWE.
58	I think the course wa really useful and successful. It is presented by the most appropriate way to students.
	The teacher should discuss a variety of economic problems (included in the test). He should change his criteria
	about assessment so that more students have a maximum grade. This would have a great stimulating effect on
	the students.
	Keep doing your job. Presents the material well and understandably.
	Best teacher I've ever had.
62	The course was perfect and only the starting hour on Saturday is a little problem.
	I really enjoyed the course and after the first lecture it became my favourite subject. Even though it was on
	Saturday morning, I was very interested in the material, and the professor made it even more interesting. I'm
	giving 5/5:)
64	You are the best teacher that I have ever had.
	I love this course. Every morning (Saturday morning to be exact) I feel motivated to get up at six o'clock in order
	to attend Stankov's course. My general opinion is the following - it's better to sacrifice a few hours of sleep and
	learn something rather than lazy around all day and smoke cigarettes and drink liquor. In this sense the
	Econoics course cares for my health and well-being. I was honest in all the 5s I gave Stankov. I would like to give
	him a 6, as the song goes Wish you all the best, Stankov. If there were at least 10 more teachers like you,
	Bulgaria would become a better place. There is a lot more I would like to say but this f**king sheet of paper is
65	too small:)

66 I can't complain of the course. Everything which Asst. Prof. Stankov explains is clear. The examples which he gives are interactive and when he feels that we are getting distracted he tells something funny in order to make us feel better. There are not so many teachers who communicate with the students the way he does. It is an honour for me to participate in his classes. Petar Stankov is a real professionalist and people like him must be admired for their motivation to teach and to learn from the others.

Your interesting lectures sparked my interest in economics. I enjoyed the course and I can honestly say that 67 now I have a good basis in economics.

68 More strippers!!!

69 In my opinion you have the qualities of the good teacher, just keep up working.

70 I'm pretty sure you have everything to be a professional teacher! So keep up the good work=)

71 We need more discipline cuz only one part of students listen what the lecture says.

72 Quality of teaching is very good and I do't think there is need to improve something.

73 Your course is very interesting. You are the best teacher I've ever had! Congratulations!:)

74 This scale is not enough to rate this teacher because he is probably the best of all teachers I've had in this university. Any criticism will be inappropriate for him. I am very stimulated to attend every lecture because of the way of teaching is so amazing you just can't miss it.

I think that the course content needs no change. You should keep up the good work because the course is very interesting for us to listen and we've actually learned something new and important for our future courses.
