## Petar Stankov, Microeconomics, Spring 2012, Verbal student evaluations

- 1 It will be better to solve more problems.
- 2 It's great the way it is.
- 3 Best TA we'we had so far. This is the most challenging class.
- 4 It is great that you use different forms to teach (tests, articles, graphs), because people study differently.
- The TA sessions in micro were the most useful course during the semester. An emphasis on the additional sources of information and the connection to the real world would improve our overall understanding of the subject.
- 6 One does not simply give a pop-up quiz the last week [angrily].
- 7 One of the best teachers [I have] ever had. Really stimulates the students to get into the material and more teachers should be like him.
- 8 The examples that the teacher gives are easy to understand. He is the best!
- 9 There is nothing to be improved. We gained a lot of knowledge during the seminars and enjoyed each one of them, too;-)
- 10 Teacher knows his shit, no improvements needed.
- 11 I think it is great that you answer the student's questions in a very simple way so that they could understand what they previously could not. I am very happy to have had the opportunity to take your classes. Have a nice holiday. See you next year!
- 12 Thinks that can be improved: 1) less formulas!, 2) more discussions.
- 13 This is actually my idea of how a teaching session should be organized in order to be efficient and beneficial for the students.
- 14 The thing I liked most about this course is the useful practical examples so it would be good if you keep on this way of teaching.
- 15 In my opinion the course is really useful for understanding the material really well.
- 16 You rock. You rule.
- 17 It were fun seminars with you!
- 18 The beast teacher!!!!!!
- 19 A really nice person to work with. He brings microeconomics to a whole new level because his teaching is really interesting and he knows how to work with young people. My personal grade is A+.
- The best EVER! He should have won the teacher of the year award. [In fact, he did win in the asst. professors category.]
- 21 Stimulating the active participation more.
- The course content and the quality of teaching can be improved with more presentations (ppt).
- 23 The course does not need any improvement! It is absolutely efficient!!!:)))
- 24 Seldom do I meet such a good, professional and caring teacher as prof. Stankov. I have no complaints about his teaching. I wish he could teach us the second year too.
- Overall, among all of the professors, he proves to be the best of them regarding professionalism, organization, etc.
- 26 I think that the method of teaching is very efficient.
- 27 Prof. P. Stankov is always fully devoted during the seminars and successfully transfers his passion in economics to us.
- 28 I think that asst.prof. Stankov did [an] admirable job this semester.
- 29 I think that it would be good if there was a break in the middle of the class. I learned a lot. Thank you.
- 30 We need more TA session paper sets for HW with answers.
- 31 More time for discussion about economics outside the learning material.

32	I think that an interactive method of teaching is necessary. For example simulating real-life
	situations, some kind of games, more discussions involving students, etc.
33	:)
34	\m/
35	You do a great job and help us a lot.
